Ebbinghaus Verbund GmbH Acquires GREENKOTE® License

CLEVELAND, OH (April 7, 2011) — GREENKOTE® Plc, a global coating technology company, today announced the sale of an Applicators and Supply License to Ebbinghaus Verbund GmbH, a specialized metal surface coater and finishing company of Solingen, Germany.

Ebbinghaus has begun production of metal coating operations utilizing the GREENKOTE® patented Thermo-Diffusion coating technology in March of 2011. The new coating line is located at the Ebbinghaus Styria facility in Graz, Austria to enhance anti-corrosion capabilities for its current E-Coat, powder and wet paint finishing systems for fasteners and formed metal components supplied to the automotive, industrial and construction markets.

Arie Laor, Greenkote's CEO cites the addition of coating capacity for Thermo-Diffusion systems as continued validation of the technology for high performance corrosion protection required by the European automotive and industrial markets.

GREENKOTE provides a range of innovative coating services through group-owned plants, joint ventures and licensing relationships. Numerous companies are evaluating the GREENKOTE coating technology to be used in combination with their own products.

Headquartered in Cleveland, Ohio, GREENKOTE® Plc, a global coating technology company, offers high quality coatings that provide protection on a vast array of parts used in the automotive, construction, defense/small weapon, and electronics industries, among others. GREENKOTE's patented coating technology improves the properties of a wide range of metals, alloys and sintered powders giving them added qualities such as increased resistance to low and high temperature corrosion, increased wear resistance and

better bonding to rubber and plastic. In addition, the GREENKOTE® coating process is environmentally friendly and designed to ensure all excess materials are recycled or reused in the process. Currently, GREENKOTE has plant locations and licenses in the United States, Mexico, Germany, United Kingdom, and Israel. For more details visit GREENKOTE online at www.greenkote.com.
